

Veterinary Microbiology - Practical Examination
05th February 2021

Examination venue: Student practical room/Department of
Veterinary Pathobiology

Group	Time of examination
A	9.00-10.00 am
B	10.30-11.30 am
C	1.00-2.00 pm
D	2.30- 3.30 pm

Special instructions:

- Students have been assigned into four bubbles as a strategy to minimize the cross contamination. Therefore, students are strictly advised not to change their groups
- Bringing your mobile phones when you come for the examination is strictly discouraged. If you do bring your mobile phones, there is a possibility of surface contamination during storage and we would not take the responsibility of providing secure storage for your phones
- Try to bring only the very essential items (packed in a small bag) when you come to the faculty for the examination.
- Students in each group should report to the lecture room of the Department of Veterinary Pathobiology 30 minutes before the scheduled examination time of their respective group.
