### Special instructions:

- Students have been assigned into four bubbles as a strategy to minimize the cross contamination. Therefore, students are strictly advised not to change their groups
- Students in each group should report to the venue only during the scheduled time of viva voce examination.
- Students in each group should directly enter the lecture room of CAADDR (without going through the main building) and stay there until they are requested to report to the viva room. Each student should leave the premises soon after he/she finishes the viva voce.
- Considering the prevailing safety concerns, students are advised to stay only in the lecture room of CAADDR during the waiting time.
