Special instructions:

- Students have been assigned into four bubbles as a strategy to minimize the cross contamination. Therefore, students are strictly advised not to change their groups
- Bringing your mobile phones when you come for the examination is strictly discouraged. If you do bring your mobile phones, there is a possibility of surface contamination during storage and we would not take the responsibility of providing secure storage for your phones
- Try to bring only the very essential items (packed in a small bag) when you come to the faculty for the examination.
- Students in groups **C** and **D** should report to the venue **after having their lunch**.
- Students in groups **A** and **B** should report to the venue after having their breakfast because they can leave the premises only at 12.30 noon
